"FUTURE PROSPECTS IN BOTANY AND BIOTECHNOLOGY"

CHIEF GUEST & INVITED SPEAKER

Ms. ANITA JOY

Asst. Professor (on contract), St Thomas College, Pala

**DATE: 29 NOVEMBER 2021, 10.30 a.m
VENUE: MAR MATHEW POTHANAMUZHI HALL**

Dear Sir/ madam,

Biology is a fast expanding field and pursuing a career in biology can be immensely rewarding and exciting, but challenging too. Today's educational system opens the doors of knowledge to students in interdisciplinary areas with special emphasis to create a scientific research outlook. However, to reach their dream careers students need to train themselves towards it by finding the right place for their future education and understanding the various possibilities they can exploit. It is in this context that a proper orientation for the future prospects becomes important.

We, the Department of Botany and Biotechnology, Newman College, Thodupuzha is organizing **Biovibes-2021, an Orientation Programme** on Career Prospects in Botany and Biotechnology, supported by DBT Star College Scheme to give awareness to our students about the varied career opportunities and recent advances in the field of Botany and Biotechnology.

The occasion is also the platform for our **Merit Day Celebration- our pride moment** to congratulate our student's meritorious achievements in University exam which will inspire other students walking through the same path.

OUR INVITED SPEAKER

Anita Joy, Asst Professor, St Thomas Pala is a charismatic orator and passionate teacher who instills hope and radiance in students. She was an outstanding student during her college days both in academics and in extra curricular activities. As an honour and encouragement to her enthusiasm she was awarded the coveted Luminary award from SB college changamacherry. She is arduous in widening her horizons of knowledge and is also a certified counselling psychologist.

Ms. Jaiby Cyriac
Dr. Anju T R
